

Call for Papers: Hogan Best Applied Paper Award

Journal: *Personality Science*

Award: Hogan Best Applied Paper Award

Personality Science is excited to announce the call for submissions for the Hogan Best Applied Paper Award, sponsored by Hogan Assessments. This prestigious award honors the best paper that addresses real-world issues or solves problems commonly encountered in applied or practical settings. The recipient of the award will receive €1,000.

New Feature: Focus on Registered Reports

This year, the award will place a special emphasis on registered reports. We encourage submissions that showcase rigorous and transparent research practices, adhering to the highest standards of empirical integrity.

Award Process:

1. Applicants submit their Stage 1 registered report manuscript (which includes the introduction, hypotheses, and method section) to *Personality Science*. The submission should be done through the *Personality Science* submission portal: mc.manuscriptcentral.com/personality.science
2. Applicants notify the editorial assistant of the journal, Phine Hazelbag by e-mail (j.m.t.hazelbag@uu.nl), that they would like to qualify for the Hogan Award, and include it in their cover letter.
3. The winner will be chosen early 2025 by Hogan Assessments based on the Stage 1 manuscript in consultation with the Editor-in-Chief of *Personality Science*.
4. The recipient of the award will be announced via the newsletters of the associations that are involved in *Personality Science*, and receives the award money.
5. Any submitted Stage 1 manuscript (even if it does not receive the award) is eligible to be approved by the editorial team of *Personality Science*, after which it can be submitted as Stage 2 manuscript.
6. After acceptance of the Stage 2 manuscript, a publication notice will be disseminated via the newsletters mentioned above.

About *Personality Science*:

Personality Science is a multidisciplinary, open-access journal that publishes high-quality theoretical, methodological, empirical, applied, and commentary papers. The journal embraces a broad scope, examining individual differences from biological, psychological, and social perspectives, and encourages contributions from diverse fields such as genetics, anthropology, sociology, computer science, economics, educational science, medicine, and political science.

Key Features of the Journal:

- **Multidisciplinary Scope:** We actively seek contributions from various scientific disciplines.

- Public Engagement: We welcome papers that bridge personality science with societal, geopolitical issues, public interest, policy, and applied practice.
- Geographical Diversity: We aim to include high-quality publications from authors worldwide and promote research using non-WEIRD samples.

Submission Guidelines:

- Papers should be submitted through the *Personality Science* submission portal. Please ensure submissions are formatted according to the journal's guidelines and include a clear statement of their applied relevance and impact.
- For detailed guidelines, please refer to journals.sagepub.com/author-instructions/PPP.

Deadline for Submissions:

- December 1st, 2024

We look forward to receiving your submissions and recognizing outstanding applied research in personality science.

For more information and submission details, please visit our website or contact the editorial office at jjadenissen@gmail.com.
